

Mississippi School for the Deaf-**Day Student**

Day Students' Participation: Day students are welcome to participate in all after-school activities at MSD. They may go to the residence halls after school only if permission to do so has been obtained from the Director of Residential Services or the Residential Education Supervisor and if the request is on file in the appropriate Principal's office. Parent(s)/guardian(s) is (are) expected to transport students to and from activities. MSD will not be responsible for providing transportation home for any day students that remain on campus.

Please note that if any issue occurs with a day student, the parent is contacted immediately to discuss and pick up the child. Students are allowed to stay in the dorm if a situation prevents the parent from picking up the child after practice such as: health issues, job, bad weather, or late arrival to campus from a game.

If we have any issues with a day student, we contact the parent and inform them that their child is no longer allowed to stay in the dorm due to behavior issues. Once athletics is over, we have the right to send the student home daily. We try to be flexible if the student does not have any behavioral concerns.
